Visit my portfolio website to explore a comprehensive showcase of my past projects.

10+ Years Exp

Passionate about coding and continuously researching emerging technologies, particularly AI implementation in business environments. A highly proactive individual with strong initiative in driving innovation and digital transformation.

PROFESSIONAL EXPERIENCE

R&D Apps Department Head

2022 - Present

PT CSM Corporatama (INDORENT) - Salim Group

- Leading 6+ specialized teams in R&D and Application Development.
- Orchestrating delivery of 20+ large-scale projects across Web & Mobile.
- Build frameworks for frontend, backend, and mobile development, enabling teams to follow standardized guidelines and best practices.
- Managing the end-to-end SDLC, from product ideation and UI/UX design to scalable architecture and high-performance DevOps deployment.
- Collaborating with executive stakeholders to translate business strategies into technology-driven solutions.

Programmer Supervisor

2019 - 2022

PT CSM Corporatama (INDORENT) - Salim Group

- Translated complex business requirements into scalable technical architectures.
- Mentored and coached junior developers while establishing coding standards and engineering best practices.
- Led architectural improvements including migration from monolithic systems to service-oriented architecture.
- Ensured timely delivery of mission-critical systems through structured development processes.

Programmer Staff

Jan 2016 - 2019

PT CSM Corporatama (INDORENT) - Salim Group

- Built and maintained mission-critical modules for operational platforms.
- Contributed to company digital transformation initiatives, improving efficiency and automation of business processes.
- Modernized legacy systems into scalable and maintainable platforms.
